

## PARKTOWN BOYS' HIGH SCHOOL

November 2018

TO WHOM IT MAY CONCERN

### TESTIMONIAL

It is my pleasure to confirm that

**KAMOGELO MOOI**  
(ID No. 0003015086089)

has been a learner at Parktown Boys' High School since his Grade 8 year in 2014 and is currently in his final Matric year at the school.

During this time I have witnessed Kamogelo grow into a confident, mature young gentleman with impeccable manners. He epitomizes the ethos of Parktown Boys' High School in his total commitment to excellence in every endeavour. As Student Executive Council (SEC) member, Kamogelo has led by example and developed a character that will stand him in good stead in his future. He is eager to work and is always willing to learn and take advice in order to improve not only his own position, but also that of the group. Kamogelo is a leader who commands respect and loyalty from his peers and the staff of Parktown Boys' High School.

Academically, Kamogelo is an above-average learner who is always prepared to put in extra time and effort in order to ensure his full understanding of concepts. He is well behaved in the learning environment and contributes in a meaningful and positive manner. I have complete faith in his ability to excel in pursuit of any academic endeavour.

Extra-murally he has been completely involved in all aspects of life at Parktown Boys' High School. This involvement has included cultural activities such as the school's Brass and Drum corps. Recognising his years of service to the Band, the school awarded him Half Colours in 2017. Kamogelo also represented the school at Athletics, Football and Rugby, culminating in him being awarded Full Colours for Rugby in 2018.

It is not often that educators experience, or are influenced by, exceptional learners. Kamogelo is such a learner. It can clearly be seen in his sense of purpose and his history of achievement and will most certainly guarantee him a successful future.
